Sergio Alberto Mejía Rivera

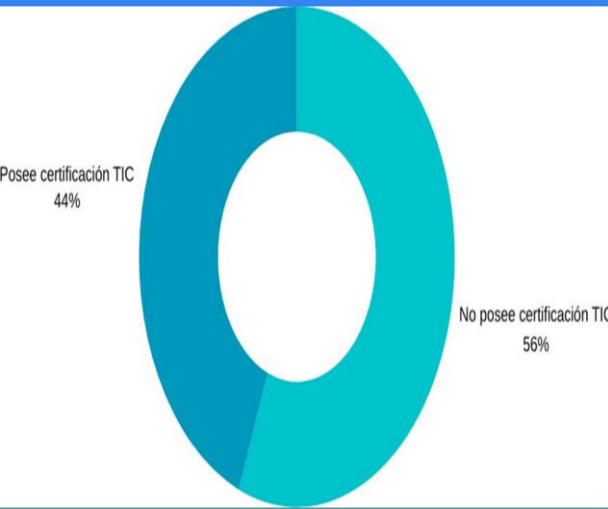

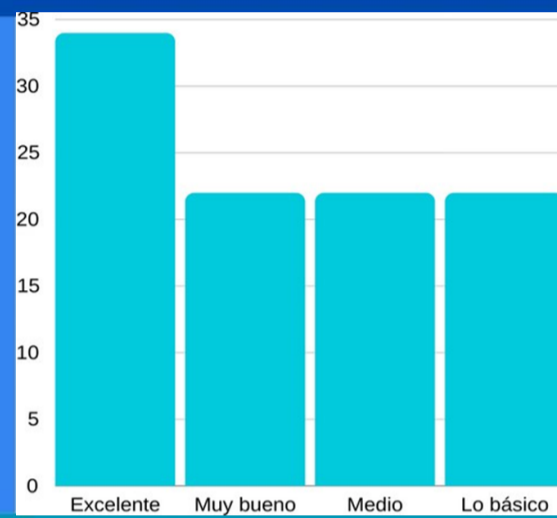

Use of virtual tools

100 % utilizan Zoom ou Meed pour dispenser leurs cours en ligne. 44 % du personnel possède sa propre chaîne YouTube. De plus, on observe que seulement 33 % utilisent des outils numériques pour l'élaboration de supports interactifs et dynamiques pour le développement de leurs cours virtuels.

Use and mastery of Moodle

34% have an excellent command of this platform. Meanwhile, 44% are between average and very good. Additionally, 22% only handle the basics of this platform, which is so essential for the development of virtual classes.

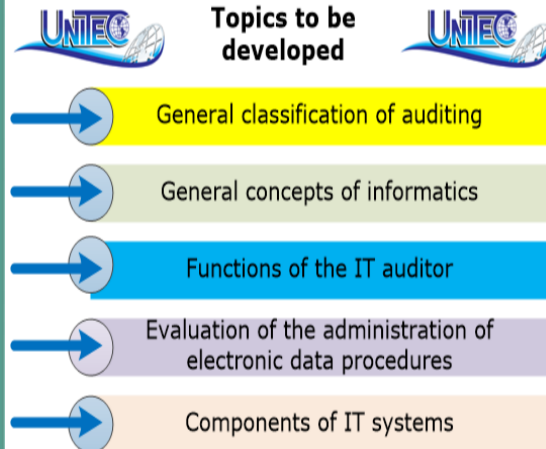

ICT Certification

44% of UNITEC teachers do have their ICT certification, and 56% do not have it

Classroom Gamification

As teachers, we must be aware of and open to all the changes in education.

Use of technology

Our students must be aware of and open to the use of technology for the development of their online classes.

Virtual Education

As university teachers, we must provide the necessary tools for our students to acquire meaningful learning.
